

**INSTALLATION AND MAINTENANCE SERVICE**

BHP service engineers are available to install and service all BHP Printers and PCSII Conversion Kits on site or at the BHP factory. Quotations for installation of PCSII Conversion Kits or Model C Printer floppy disk data entry systems, or other maintenance services will be provided on request.

**WARRANTY**

The terms and conditions of the BHP one year warranty on all new printers and accessories against defects in materials and workmanship are set forth in the manual provided with all Model 6131 Printers and PCSII Conversion Kits. Copies of that warranty are available on request.

**ORDERING INFORMATION**

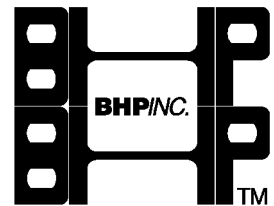

PCSII is supplied as standard equipment on all new BHP Model 6131 series Modular Printers. Contact your BHP representative for complete information on Model 6131 Printers and assistance in selecting the Printer model and accessories best suited to your film printing requirements.

PCSII conversion kits are available to upgrade existing Model 6123, 6124, 6125 and 6127 Modular Printers.

An accessory external floppy disk drive data entry system is also available for installation on most Model C Printers equipped with PCS reader/controllers.

**PCSII Conversion Kits**

<b>Part Number</b>	<b>Description</b>
038632	Printer Control System II Conversion Kit for BHP Model 6127 Modular Printers; includes control module with 1/2 step trims, 3-1/2 inch floppy disk drive, photo-electric program tape reader and adapter cable.
038653	Printer Control System II Conversion Kit for BHP Model 6124 and 6125 Modular Printers; includes control module with 1/2 step trims, 3-1/2 inch floppy disk drive, photo-electric program tape reader, power supply and adapter cables.
038654	Printer Control System II Conversion Kit for Bell & Howell Model 6123 Modular Printers; includes control module with 1/2 step trims, 3-1/2 inch floppy disk drive, photo-electric program tape reader, frame count cue system, three BHP Electronic Light Valves, power supply and adapter cables.
038659	PCSII/Fader Interface Kit for Printers already equipped with Faders; includes PCS Fader Mother PCB, cables and mounting hardware. <b><i>This Kit must be ordered with the 038653 or 038654 PCS Floppy Disk Conversion Kits if the Printer has a Fader.</i></b>
316877	PCSII/Fader Interface Kit 5 volt Encoder for Model 6123 and 6124 Modular Printers with Electronic Faders originally supplied with 12 volt encoders. <b><i>This Encoder must be ordered with the 038653 or 038654 PCS Floppy Disk Conversion Kits if the Printer has a Fader with a 12 volt encoder.</i></b>
038681	Floppy disk drive/control data entry system for PCS equipped Model C Printers; includes external system module with 3-1/2 inch floppy disk drive and adapter cables. <b><i>This accessory is designed to interface with only PCS reader/controllers and will not function with older PCM, PCU, High Speed or Friden readers, nor readers supplied by other manufacturers.</i></b>
038638	BHPPrinter Control Editor® Software and User's Guide
