

Instant Upgrade for your BHP Film Printer!

NEW HEATSINK MOTOR CONTROLLER DESIGN

Improved Performance & Reliability – Saves You Money

- Plug n play replacement in the field...no adjustments and harness modification needed on the existing printer...you can do it in minutes.
- RoHS compliant...totally new redesign.
- Minimized controller failures and down time.
- Better heat dissipation.
- Better thermal balance means reduced gain change and improved reel motors performance.
- Better tension control for improved winding.
- Better vertical stability for better prints.
- Easy to service and replace components.
- BHP recommends, for optimal performance and longevity, all 4 controllers should be replaced at the same time.
